Hi I'm Yumi.

A Web developer based in Melbourne, Australia. I have a passion for web design/fashion design. Lorem ipsum, or lipsum as it is sometimes known, is dummy text used in laying out print, graphic or web designs.

Study

The purpose of lorem ipsum is to create a natural looking block of text (sentence, paragraph, page, etc.) that doesn't distract from the layout. A practice not without controversy, laying out pages with meaningless filler text can be very useful when the focus is meant to be on design, not content. The passage experienced a surge in popularity during the 1960s when Letraset used it on their dry-transfer sheets, and again during the 90s as desktop publishers bundled the text with their software. Today it's seen all around the web; on templates, websites, and stock designs. Use our generator to get your own, or read on for the authoritative history of lorem ipsum.

Whether a medieval typesetter chose to garble a well-known (but non-Biblical—that would have been sacrilegious) text, or whether a quirk in the 1914 Loeb Edition inspired a graphic designer, it's admittedly an odd way for Cicero to sail into the 21st century...[More](#)
