Zumin Yu

Junior Web Developer

I am a self-motivated web developer with design, merchandise/marketing skills and experiences. A team-player with time-management skills, who wish to use my knowledge to solve business problem. I am looking for an opportunity to grow front-end and back-end development skills in an innovative environment.

Key Projects

GarageSale Web App

- A prototype two-side marketplace in which users can upload, buy and sell their second-hand items.
- Features include image upload and retrieval using AWS S3, user login and authentication using Devise, locate seller's address using Google map, and payment using Strip.
- Created in Ruby on Rails with a PostgreSQL database and developed using Heroku.
- Link of the GarageSale app

Digo-Weather

- Build during a 36-hour hackathon, this app uses the Open Weather API and google Maps API to locate the city weather that user type in.
- By building this app, I learned Fetch and use data from API, source control when build a project as a team.
- Tech used: JavaScript, HTML, Bootstrap, CSS.
